## PROFESSIONAL EXPERIENCE

**AGM Global co**

**February 2024 - Present**

**Associate Odoos developer, Qatar**

Worked as Odoos developer in the team. Experienced Odoos developer with a solid background in Python and Django. Developed and enhanced various modules in the Odoos ERP system, collaborating with clients and team members to implement customized solutions.

---

## INTERNSHIPS

**Zoople Technologies, Ernakulam**

**December 2022- May 2023**

**Full stack developer: Django**

After completing my academic studies, I dedicated myself to mastering the intricacies of back-end web development. Concurrently, I honed my front-end web design skills, achieving proficiency in creating web applications. Remaining abreast of the latest advancements in the Django Python framework, I have developed a strong ability to independently design, develop, and test code. Additionally, I have acquired a foundational understanding of Angular, appreciating its structured approach.

**Poonchola Technologies PVT LTD, Kozhikode**

**January 2019- August 2019**

**Full stack developer: Django**

During my B.Tech academic tenure, I pursued a front-end development course out of a genuine interest in web development. This experience allowed me to actively collaborate with seasoned developers in dynamic settings, where I offered support and continually enhanced my skill set within the field.

---

## EDUCATION

**AWH Engineering College**

**March 2018- March 2022**

Bachelor of Technologies Computer Science  
6.7 CGPA

**Rahmania Higher Secondary College**

**January 2016- March 2018**

Higher Secondary- Computer Science  
93.5%
